

Dennis Thanner

hello@dnnsthnnr.com · github.com/dnnsthnnr · linkedin.com/in/dennis-thanner/

Software engineer with 8 years of experience. Language independent, with a preference for TypeScript and Python. I take products from idea to production and stay for the maintenance.

EXPERIENCE

Freelance software engineer

Self-employed · Munich / remote · since Oct 2026

– Product development for clients alongside my own projects. Get in touch.

Software engineer

Nomos · Berlin (Hybrid) · Apr 2025 — Sep 2026

– Built the in-house operating system of an energy retailer (TypeScript, Next.js) in a team of 4 engineers.
– Scaled it with the business from hundreds to 10k+ customers.
– Automated and operated the billing processes, collecting up to 500k€ in payment volume per month at peak.

Software engineer

lemon.markets · Berlin (Hybrid) · Mar 2021 — Mar 2025

– First full-time hire. Built the trading API connecting to the exchange (FIX) and the banking partner.
– Helped pivot to a full brokerage under our own BaFin license, obtained after two years. Designed and built the core banking system and ledger, which safeguarded 10M€+ in assets under custody.
– Led the post-trade squad as interim squad lead and shipped securities and cash settlement in 3 months, up to the first live trade.
– Moved between squads and led cross-squad engineering improvements.

Software engineer

sonnen · Wildpoldsried · Jun 2018 — Feb 2021

– Helped bring the energy retailer in-house (Python, AWS Lambda, PostgreSQL), starting with billing and then the full retail stack.
– Integrated the energy retail ERP with the CRM and billing systems into one automated retail platform.
– Took over day-to-day operations and then automated them.
– Led a team of analysts and engineers as interim product manager for 3 months.

STACK

TypeScript · Python · Node.js · React · PostgreSQL · AWS · Language independent
